## Integrated Management System

Tour 2 [Integrated Management system](#)

next: [Process map](#)

An **Integrated Management System (IMS)** brings together various sets of rules that serve corporate governance. For example:

- Quality management (ISO 9001)
- Risk management (ISO 31000)
- Environmental protection and occupational safety management (ISO 14001 and ISO 45001).

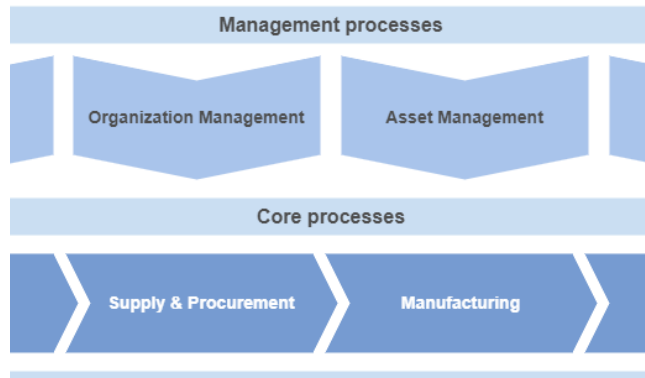

## Management systems in a wiki

Wikis have established themselves as appropriate systems for the organization of management systems:

- *Central storage:* The rules and regulations are available centrally and online for all employees.
- *Search function:* Content can be quickly found via the search function and is perfectly pre-sorted via namespaces and categories.
- *Version-based editing:* Content can be edited and easily maintained in no time at all using a visual editor and forms.
- *Document control:* Templates, workflow and release functions ("control of documents") support the editorial processes.

## ● ● ● Risk matrix

	Impact →	Negligible (A)	Marginal (B)	Considerable (C)	Critical (D)
Consequence	Environment (IE)	Slight effect	Minor effect	Localized effect	Major effect
	Asset (IA)	Slight damage	Minor damage	Medium damage	Major damage
	Health (IH)	Slight physical or mental harm	Minor physical or mental harm	Major physical or mental harm	Single fatality
	Business continuity (IB)	Minor visible or barely recognizable disruption of service	Recognizable temporary disruption of service	Minor functional (permanent) disruption of service	Major functional (permanent) disruption of service
	Data protection (ID)	No data loss / no data disclosure	Loss of rebuildable secondary data, disclosure of public data	Loss of easily recoverable data, disclosure of internal data	Loss of recoverable data, disclosure of some protected data
	Certain (5) 81-100%	A5	B5	C5	D5
	Likely (4) 61-80%	A4	B4	C4	D4
	Possible (3) 41-60%	A3	B3	C3	D3
	Unlikely (2) 21-40%	A2	B2	C2	D2

	Improbable (1) 0-20%	A1	B1	C1	D
↓ Probability (within 5yrs)					

## Relocation of IT Staff

Tour 2 [Integrated Management system](#) < [Process Map](#)

next: [Minutes](#)

When relocating the workstation of an employee (e.g., office transfer or change of department), the respective team leaders coordinate the move and agree on a relocation date.

The process can easily be visualized in a [BPMN](#) diagram.
