Sandbox

A selection of standard built-in content elements - this is how you breathe life into the wiki!
Switch to edit mode to edit the page yourself.

Contents

1 Tables 3
2 Diagrams / Infographics 3
3 Videos 3
4 Page lists 3
5 Inputbox 3
6 Code documentation 4
7 RSS-Feed 4
8 Emoticons 4
9 CountThings 4
10 Category tree 5
11 Tag cloud 5
12 Widgets 5

Tables

Tables

Tables have practical filter and sort options. For filtering and sorting, users can click on the respective header of a column in view mode. This function is not available in edit mode. Example of a filterable table:

Function	Value
Filterable table	functioning
Category check	n/a
Sortable table	functioning

Diagrams / Infographics

Diagrams

Flow charts, organizational charts, process maps, BPMN diagrams and more. Here is an example of an infographic created with the integrated drawio tool:

Videos

Videos

Video is of course also possible. Regardless of whether it is stored directly in the wiki or whether it runs on a common video service. Here is a test video uploaded to this wiki:

https://en.demo.bluespice.com/wiki/File:gizmo.mp4

Page lists

Smartlist

With the integrated *Smartlist* extension, page lists can be easily created.

trim: Not a valid integer

Inputbox

Input boxes are practical tools for directing new pages to specific namespaces (wiki areas). A page that you create here is saved in the IMS namespace:

ⓘ pages/Inputbox Inputbox

</> Code documentation

ⓘ SyntaxHighlight

Code can be clearly displayed using the included extension *SyntaxHighlight*:

```
<?php
echo "Hello world!";
?>
```

RSS-Feed

ⓘ RSS-Feeds

Here is a feed from Bluespice.com. Can be formatted with or without a description.

MediaWiki versus Confluence? Not a question of features

Whenever companies want to use professional wiki software, they quickly face the question of whether to choose **MediaWiki** or Confluence. We can help you to make the right choice ... Der Beitrag...
