## Knowledge Base

A **knowledge base** is a place where the knowledge of an organisation, department, or team can be centralised. Employees collect their team and department knowledge and companies use it to provide an online helpdesk to answer frequently asked questions (FAQs) and share best practices.

Finally, you can find information about products, services, events, organisations, locations and partnerships.

Webinar: BlueSpice 4 (12:43)

Wikipedia and its sister projects are undoubtedly the most popular knowledge bases. Wikis are created to easily and collaboratively add or update knowledge dynamically.

Different contributions are quickly linked together. Over time, wikis become more valuable as the links become richer and more complex.

Wikis, and in particular the Wikipedia software MediaWiki, are designed to allow knowledge to be aggregated and individual wikis to be combined.

### Encyclopedic article

#### Introduction

With more than 165,000 inhabitants, Regensburg is the fourth-largest city in the State of Bavaria after Munich, Nuremberg and Augsburg.<sup>[1]</sup>

The medieval centre of the city is a UNESCO World Heritage Site [\[2\]](#). In 2014, Regensburg was among the top sights and travel attractions in Germany.

Regensburg has three universities and is one of 3 regional centers in Bavaria.

Throughout the centuries, the city was known by a variety of names. It is still known in the Romance languages by a cognate of its Latin name of "Ratisbona" (the version "Ratisbon" was long current in English).

Between 1135 and 1146, the Stone Bridge across the Danube was built at Regensburg. This bridge opened major international trade routes between northern Europe and Venice, and this began Regensburg's golden age as a residence of wealthy trading families.

Regensburg became the cultural centre of southern Germany and was celebrated for its gold work and fabrics.[\[3\]](#)

#### Geography

##### Topography

Regensburg is situated on the northernmost part of the Danube river at the geological crossroads of four distinct landscapes:

### Operating instructions

#### Coffeemaker

**⚠** Never fill in water without immediately brewing coffee. Flooding can occur if the tank is filled again afterward.

Product description

Product description

- Eine stabile Faltschachtel aus brauner Wellpappe.
- Dieser Karton ist theoretisch bis 20 Kg belastbar, je nach Einsatzzweck.
- Einwellige Kartonagen sind optimal für leichte bis mittelschwere Güter.
- Dieser Karton ist eine optimale schützende Verpackung.

**Talk:Coffeemaker**  
**Coffee too strong**

The coffee has been a bit strong so far, could we do a test run with less coffee powder?

Well. 6 grams of coffee per cup says the instructions. And the amount of powder increases linearly with the cups. By the way: If you squeeze out the last cup of coffee, you should cook a new one right away.

The amount of powder does not increase linearly with the amount of water. See for example the article here: <https://fellowproducts.com/blogs/learn/the-golden-ratio-for-brewing-coffee>

### Greg Rundlett about BlueSpice

Greg Rundlett came to the following conclusion at the EMWCon in Houston: BlueSpice is really the best option out there - I think globally - for MediaWiki Enterprise, MediaWiki hosting and support.

### Paul Arnoux commented "Coffee too strong"

Well. 6 grams of coffee per cup says the instructions. And the amount of powder increases linearly with the cups. By the way: If you squeeze out the last cup of coffee, you should cook a new one right away.
